ABOUT US

Founded in 1991 by Mr. Sugathan Janardhanan, the Royal Group is a multinational business entity with diverse interests and expanding market presence. The group's first foray was into furniture in UAE and the enterprise, Royal Furniture is today one of the largest manufacturing and trading companies in furniture & furnishing accessories across the Middle East and Asia. The group has manufacturing facilities in UAE, China and India.

Indroyal Furniture is the Indian arm of the furniture division and a preferred brand for good quality furniture in South India. The company has an extensive network of well appointed retail showrooms here and is rapidly expanding in pursuit of a national foot print. The Group also has expertise in handling turnkey furnishing contracts for residential, commercial and hospitality sectors. Indroyal Furniture offers customized interior fit out solutions for homes, offices, hotels & resorts and has to its credit a host of happy customers. In addition to furniture, the company also produces an extensive range of luxury mattresses and bedding accessories.

The group has significant presence in hospitality and real estate. Indroyal Properties is the real estate arm of the Indroyal Group and a leading name in high end luxury residential projects.

WHY INDROYAL!

Indroyal is amongst the few fully integrated furniture manufacturers in India. At Indroyal, we make most of the critical components that go into making our furniture. This enables us maintain superior quality in our products.

Every piece of solid wood is chemically treated and seasoned at our factories to ensure our furniture lasts a life time.

Polyurethane Foam – The density and texture of foam required for a particular seating system is dependent on its design criteria. Having our own foaming units help us customize the output precisely as per design requirement.

Springs – We use high quality oil tempered wire and advanced winding and coiling machines to make our springs. The compression and pitch of the springs vary for different models and producing them in house brings about a great degree of flexibility in designing and accuracy in the component.

Elastic Sofa Belts – We produce export quality elastic sofa belt webbing in 2 & 3 line configuration of 4, 4.5 & 5 cm widths and these are used in our products. Being the part that takes significant load, inferior quality belts result in sagging of sofa seat and back cushions during regular usage.

PU Coating – All exposed wooden surfaces in our furniture are coated with high grade fast drying polyurethane paint with low solvent emission. Since the painting is seamless, there is no scope for moisture to enter either through the surfaces or joints. This in turn means longer life for your furniture.

Quilted Fabric — Quilting of fabric used to cover our mattresses and some of our furniture is done using very advanced quilting machines. The quality of the quilt defines the finish and life of the fabric and we take extra care to ensure quilting is of the highest standard.

Non Woven Fabric – We use quality non woven fabric produced inhouse for our furniture.
